

Thursday 4th March English Assignment

My Poem

Write your own poem about your chosen subject matter. Include the elements that you wrote in your poem plan. Be as imaginative and adventurous as you like! Remember the main aim of the poem - to paint pictures in the reader's mind and to give a desired feeling or mood.

Ladi-B

Ladi-B the ladybird strutted along the smooth, grey, concrete path like a boss.

Her blood red lipstick was as red and glossy as her gleaming shell.

With spots as black as midnight that matched her six high heel boots.

Her long black eyelashes fluttered in the breeze like feathers.

She sang out a rap "Seriously right, I'm Ladi-B, the coolest ladybird you'll ever see. Everyone wants to be like me!"

All the other insects stopped and stared.

They were pleased to see Ladi-B, she's a massive celebrity. She is a star.

She signed autographs for all of her fans.

Then all of a sudden, away she flew. But where has she gone?

Maybe somewhere near you.

There once lived a ladybird as small as a pea, as red a rose with spots as black as night.

The sun shone on a beautiful spring day, the daffodils were blooming.

she eagerly crawled out of her cosy home and crawled along the path she lived on.

“Help someone help!” Shouts the ladybird.

The ladybird silently crawled there just in case it got caught!

When she got there,

The ladybird got spotted just as she got in her hideout!

It was a little girl who nearly caught her.

The little ladybug quickly crawled into a crack in the concrete before the girl could get her.

The ladybird sighs “pew!”

She carefully waddles out of the crack to a safe place.

She meets another person on the way!

“Seriously! Right I need to be careful and watch out!”

Thought the ladybird.

The red and black spotted ladybird curled up into a ball for protection.

The person luckily doesn't spot her.

Somehow the person doesn't know what a ladybird is?!

Beacuse the ladybird heard the little girl say “what is a ladybird”

The girl's mum said “a ladybird is a ball of red, has black spots on and attached to the ball is a bunch of really small, thin looking sticks”
